- 1 You can either take a picture of your room with your smartphone and select your preferred floor, which you lay virtually.
- 2 Or you can select room images from our gallery and virtually lay your preferred floor there.

With our virtual Room Studio you can look at all of our floors in the comfort of your own home either on your laptop, tablet or desktop computer. Due to the size of the display, this is sometimes the better alternative. Just click on the "Room Studio" button on the right-hand side of the screen.
